CUTTING OIL

Manufacturer Code No. 00208

A unique compound recently developed as a true lubricant for every type of metal cutting. Will cling to curved surfaces and not run off or "break-down". "Jet-Type" spray shoots cutting oil to hard-to-lubricate areas. May be applied on hardest stainless steels or softer aluminum, copper and brass. 16-oz. Can.

ANTI-RUST SPRAY

Manufacturer Code No. 00604

Protect machined parts between operations or in storage. Protect precision instruments, tools and dies, incomplete assemblies, motors, hand tools, etc. Actually displaces moisture; forms a very thin waxy film that clings tightly, yet is quickly removed by a light solvent. Ideal prevention for corrosion due to fingerprints and perspiration. Economical—high coverage. 16-oz. Can.

INSULATING VARNISH (2 COLORS)

RED No. 0060 1

CLEAR No. 00600

High resistance to oil, water, acids, alkalis for electrical and electronic equipment. Penetrates thoroughly, dries quickly to a tough, flexible film with high adhesion characteristic, high arc-resistance and non-tracking properties.

Use on new or old stator windings, armatures, coils, commutator end rings, frames and end shields, switchboard parts, bus bars, etc. Use as finishing varnish or primer; bake or air dry. Dielectric strength 1,000 volts/mil (ASTM-D149). 16-oz. Can.

COLOR-CODE ENAMELS

The simple, low-cost way to color-code. No messy cans, brushes or cleanup. Use anywhere in plant. Identify stock and materials, tools by department, pipes, valves, conduits, etc. Spotlight moving parts and other safety hazards, mark emergency equipment. Fast drying. Permanent—cannot be accidentally removed. Full range of colors fits any coding system, all tested for quick recognition under different light. 16-oz. Cans.

COLOR	No.	COLOR	No.
Black	01770	Gold	01765
White	01800	Aluminum	01760
Clear	01000	Light Gray	01645
Red	01110	Medium Gray	01615
Dark Blue	01515	Yellow	01318
Light Green	01465	Orange*	01210
Dark Green	01445	Flat White	03720
Light Blue	01540	Flat Black	03725
Copper	01780	*Equipment Orange No. 00060	

Also available: No. 00177 Black Lacquer, No. 00180 White Lacquer.

A.S.A. MACHINERY GRAY

Meets American Standard Association specifications to match OEM factory finish. Touch up or repaint electric motors, machinery, control boxes, etc. Use anywhere—no booth needed. 16-oz. Can.

SEMI-GLOSS ENAMELS D a r t Gray (ASA #49) No. 00325
Light Gray (ASA #61)..... No. 00326

Blue Gray (ASA #24) No. 00329
Light Gray (ASA #70)..... No. 00330

LACQUERS Machine Dark (ASA #33) No. 00319
Machine Light (ASA #49) No. 00320
Gray Primer Surfacer No. 00321

CLEAR PLASTIC

Manufacturer Code No. 01000

Forms tough, flexible crystal-clear plastic film. Ideal for shop and office. Protects chrome and brightwork; valuable drawings and important papers that receive much handling. 16-oz. Can.

HIGH-HEAT ALUMINUM

Manufacturer Code No. 00324

For high-temperature applications—steam pipes, furnaces, ovens, motors and engines, etc. Withstands temperatures to 500° F. indefinitely, temperatures to 1000° F. for intermittent periods. 16-oz. Can.

BLUE LAYOUT FLUID

Manufacturer Code No. 00603

Easiest way to apply a smooth, dark, non-glare coat that dries instantly and will not rub off. New Fan-spray® valve lets you work closer, reduces overspray and waste. No more rags, daubers, spilled bottles.

Particularly well adapted to the fine lines of high-precision work. 12-oz. Can.

LAYOUT FLUID REMOVER

Manufacturer Code No. 00606

Specially formulated for quick, clean removal of layout fluid. 16-oz. Can.

MOISTURE- 8 FUNGUS-PROOF VARNISH

Manufacturer Code No. 00608

Smooth transparent coating protects electronic, electrical and communications equipment against moisture and fungus attack. Apply directly to wires, insulation, etc. Will not crack, splinter or remain tacky. Minimum insulation qualities ten times uncoated surface. Dielectric strength 750 volts per mil. Protects materials in transit, especially seaway/ocean shipments. Meets government spec Mil-V-173 B. 16-oz. Can.

STRIPPABLE PROTECTIVE COATING

Manufacturer Code No. 00322

Quick, clean and easy . . . spray it on—peel it off! New self-spraying, vinyl-type formula protects against rust, corrosion, abrasion and scratches during shipment or storage. Easy with multiple coats to build up any desired film thickness. No more messy dipping, brushing, etc. No cleanup. Just press the button to spray a smooth, even coat. No solvent needed to remove. 16-oz. Can.

AVAILABLE IN 5-GALLON PAILS AND 55-GALLON DRUMS
